

VAT Relief Declaration

If you intend to use your Scooter as a Class 3 mobility vehicle on the road, you must register it with the DVLA. Please contact eFOLDi to request guidance notes and a Registration Form.

We will have asked you during your purchase of our product whether you can claim VAT Relief. You may know that VAT Relief is available on the purchase of Mobility products such as the eFOLDi for persons who qualify under their disability. If you have declared to us for VAT Relief we will have not charged you VAT on your product.

If you have incorrectly declared for VAT relief during your purchase, SunTech UK Limited will reserve the right to charge you VAT retrospectively.

You can find out more from the Help sheets on the GOV.UK website or telephone the VAT Disabled Reliefs Helpline on 0300 123 1073 to ensure you have correctly provided us with this declaration.
