# eFOLDi Navigator angle adjustment plugs

## Information

Option A will decrease the footrest angle by approximately 3-5˚

Option B will decrease the footrest angle by approximately 5-7˚

## Information

Each plug is marked with A or B on the inside

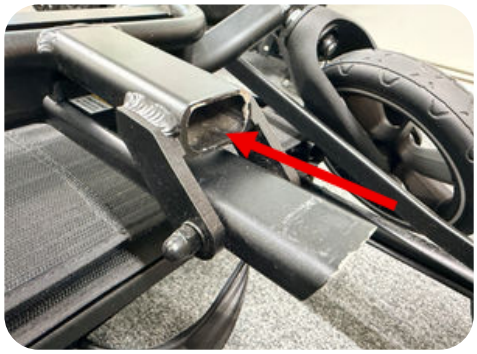

Side on, the angles can be identified.

## STEP 1

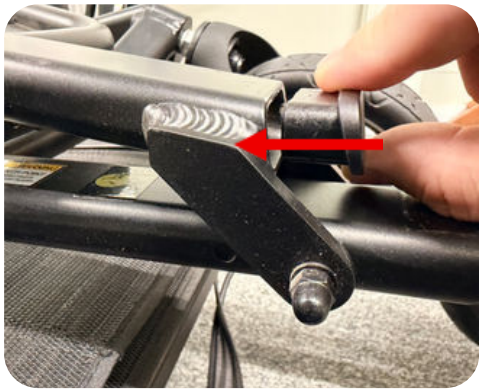

To fit the plugs, the Navigator should be lying down on it's back

## STEP 2

The bottom of the footrest tube will be visible

## STEP 3

Ensure the long face of the plug is facing downwards and slide it into the tube.

## Step 4

If required, use a non-metal hammer/mallet to push the plug in fully.

## Step 5

Plug installed correctly.

## Step 6 - Ready to Ride

## Dealer Portal
## efoldi.com/dealer-pack

**We've made it quicker and easier to access everything you need to sell, demonstrate and support the eFOLDi range.**

Our newly redesigned Dealer Portal has been organised around the way you work, with resources grouped by product so you can quickly find exactly what you need - whether you're helping a customer choose the right model, training your team or planning your next marketing campaign.

For assistance, please contact eFOLDi's Customer Care team on +44(0) 203 1435168 or email the team at hello@efoldi.com
